JOE KEMP RUN OVER BY ENGINE

PROPRIETOR OF PONTOTOC CAFE
SUFFERS LOSS OF ARM
THIS AFTERNOON.

WILL SURVIVE THE ACCIDENT

His Hearing Being Affected He Fails
to Hear Approach of the Engine.
Accident Occurs at
Crossing.

At three o'clock this afternoon Joe Kemp, proprietor of the Pontotoc cafe, was run over by a Frisco switch engine at the Main street crossing and suffered the crushing of his left arm to such an extent that it will be amputated this afternoon.

Left Cafe at 2:55.
Near two fifty-five this afternoon Mr. Kemp told his employees that he was going to look at a place, and left the cafe through a rear door. At the time he decided to leave the building he was baking pies. He went down Main street and although an Evening News reporter could find no one who witnessed the accident, it is presumed that he walked in front of the engine, not noticing its ap-

proach and failing to hear it, as his hearing is badly impaired.

The accident happening near Oklahoma Central depot, the report of the accident was telephoned from that point to the offices of Drs. Faust and Hartman, and the injured man was taken to their rooms.

Bruise on Back.

Besides the badly torn up arm, there is a bruise on his back, near the left side. Bruises are also evident on the left shoulder, but the arm is terribly ground up from the elbow to his hand.

Will Probably Live.

It is announced at press time that Mr. Kemp will probably live, although it can not be positively stated what the results will be until the operation is completed.

MAKE STARTLING CHARGES.

Dr. Harvey W. Wiley Says Sinister Influences Are Designed.

Washington, Jan. 26.—Aside from an intimate discussion of the American hen and her products, the feature of today's inquiry into high food prices by the sub-committee of the house committee of the District of Columbia was the statements of Dr. Harvey W. Wiley, chief of the Bureau of Chemistry of the Department of Agriculture, who charged that sinister influences, unnamed, had accomplished the repeal of the provision of law relating to enforcing efficiency in cold storage of food products.

Dr. Wiley said the elimination of the appropriation for this work had greatly hampered his department in protecting the public from deleterious food products. As to just what influences had been responsible for this result he did not say.

BEEF TRUST INVESTIGATION.

Taking of Testimony Before Special Examiner Expected Soon.

St. Louis, Mo., Jan. 26.—That the taking of testimony will begin within a few days in the beef trust investigation in Missouri is indicated by the appointment of Judge Daniel Dillon of St. Louis, as special examiner, announced by Chief Justice Valliant of the Missouri Supreme Court today. The selection of Judge Dillon followed the granting by the Supreme court of Attorney General Major's petition for an investigation.

The decision came as a surprise, because a consideration of the Attorney General's petition was not expected soon. The Attorney General last week asked that a special examiner be named to hear testimony in a suit filed against nine of the largest packing companies in the country, charging them with violating the Missouri anti-trust laws.

Redwine Measure Providing Prison Site Purchase Passes Senate—Several New Measures Introduced

Guthrie, Okla., Jan. 26.—The passage of three important bills, the introduction of several new measures and uneventful sessions of the house of weight, the governor's fourth message, and uneventful sessions of both houses marked yesterday's sitting of the legislature.

The house passed and sent to the senate two bills, one by Representative Wallace of Garvin, carrying the emergency clause, extending time for payment of 1909 taxes from February 1 to April 1, 1910, and one by Representative Anthony of Stephens, legalizing the 1909 tax assessments. The senate passed Senator Redwine's bill appropriating \$20,000 to acquire an additional site for the state penitentiary at McAlester. Several important bills were introduced, notably one by Senator Yeager of Tulsa and Senator Strain of Wann, putting restrictions around long distance piping and the exploitation of gas, one by Senator Graham of Marietta, regulating surety bonds for railroad employees and making it unlawful for the railroads to designate any particular company to employ; one by Senator Smith of Duncan and Senator Franklin of Madill, creating the office of county assessor; one by Representative Anthony of Stephens and Hughes of Mayes, creating the Oklahoma state home for dependant children; one by Senator Stafford providing for the election of school boards, particularly applicable to cities under commission form of government; one by Representatives McMurphy of Oklahoma, forfeiting to the debtor all debts, interest and costs of collection of any debt or claim which the creditor sends out of the state for collection.

Probe Committee Named

The house named a committee on investigation of public funds as follows: Representatives Johnson of Hughes, Smith of Grant, Ratliff of Craig, Wortman of Rogers, Price of Osage, Simmons of Tulsa and Dixon of Okmulgee.

The house went into the committee of the whole to consider Wallace's bill extending the time of tax payments and Anthony's bill legalizing rooms and livery. The house passed the 1909 tax assessments. Williams moved to recommit the Wallace bill to the committee on revenue and taxation, which motion was followed by considerable discussion along the line of yesterday afternoon.

Tax Election Bill Passes.

The bill was finally recommitted for remodeling and reappeared later in the afternoon when it passed the house standing 74 to 14. The emergency clause was added by a vote of 73 to 16.

The Republican members were sufficiently strong to have prevented the bill carrying the emergency clause, but did not attempt to do so, nearly all of these voting for the bill and the emergency clause. The bill on final passage was discussed by several members of the house. Representative Ewell of Bryan county was an opponent to the measure and in letting his colleagues know of his opposition he took occasion to remind them that conditions in his home county as a whole were never better. The report of the committee on house employees was adopted as follows: The Rev. J. P. Jones, chaplain; Mrs. Adams, assistant enrolling and engrossing clerk; Marie Smith, to fill vacancy of Mrs. Katherine Specie, as committee clerk; Irving Higbee, page to the speaker; C. G. Black, assistant enrolling and engrossing clerk.

PARIS DEATH LOSS GROWING

FLOODS TAKE LIVES OF 100,000 PERSONS IN FRANCE—RIVERS RISING.

FAMINE THREATENS NATION

In Many Places the Population Is In Desperate Condition—The Whole Republic In Mourning

Paris, Jan. 26.—The floods have brought disaster to a large part of France. The Seine is now a raging torrent and rising at the rate of more than half an inch an hour. As it furiously rushes seaward it sounds the message of increasing misery and destruction.

The victims of the flood number more than 100,000 and the momentary loss is incalculable. Thousands of poor are hopelessly ruined. The government has requisitioned army and navy material to house the sufferers, and boats for the rescue of the stricken as well as those imprisoned in the houses in the flood centers on all sides of Paris.

The region of inundation is steadily enlarging and villages in scores of places are completely submerged, the people fleeing for their lives and abandoning everything. In many cases the soldiers have been obliged to use force in compelling the inhabitants to evacuate their homes. Hundreds of them refused to leave, clamoring only for food and water.

Paris is practically cut off south and west, and if the present conditions continue the question of food supplies will become menacing.

The senate today appropriated \$400,000 for national relief. The public aid fund for this purpose is swelling. President Fallieres heads the list with \$4,000. The Rothschilds have given \$20,000.

The entire population of Irvy-sur-Seine and adjacent places are in a desperate state. Only the tops of the houses at Alfortville are visible, the water averaging twelve feet in the streets. At this place, since 6 o'clock this morning, 3,000 persons have been rescued by boats, and 30,000 others from this section have found safety by their own efforts. The rescuers had more to contend with than the turbulent waters. Groups of apaches had gathered and soon were engaged in the work of piracy. They seized several of the boats and robbed rescued and rescuers alike. In some cases they entered the houses and carried on their depredations.

There were many cases of drowning and death to the aged and sick as a result of shock and exposure. Aged and infirm, in finding themselves unable to move, a man and a woman hanged themselves to a bed post.

The hospital at Irvy, containing 2,000 patients, is surrounded by water. As there is no means of cooking the food or of heating the building, the patients must be removed unless the flood subsides, and the attending physicians fear that grave results will follow.

President Fallieres and Premier Briand made an automobile trip through the flooded districts in the eastern section of Paris. They walked through some of the streets, knee deep with mud and water, and saw the crowds fleeing, men tugging at valises and trunks, and weeping women burdened with children and all sorts of household belongings. The conditions were appalling, and the president and premier hastened away to seek means of relief for the suffering people.

The river authorities early this morning announced that the Seine would continue to rise until Thursday. The Lyons Railroad company sent out a notification that all services out of Paris had been suspended.

The great bonded warehouses at Bercy appear to be doomed to destruction, involving an immense loss. The merchants are hurriedly removing what they can.

WANT INVITATION.

Registers of Deeds Await Bid From Legislature.

Oklahoma City, Jan. 26.—The committee appointed Saturday by the state association of the registers of deeds will not appear before the legislature until it is invited to do so. This is the statement of J. S. Coates, the Oklahoma county register, who is a member of the committee. "And judging from the amount of bills on hand," said Mr. Coates, "I do not believe we will be invited at all. Of course we do not care."

The committee was appointed to confer in regard to the proposed salary and fee bill, which will affect, it is supposed, the earnings of the registers. Besides Mr. Coates, it consists of Col. R. A. Sneed, Lawton; C. E. Davis, Coalgate; E. N. Williamson, Vinita, and S. S. Tolson, Ardmore.

RUSSELL'S SUGGESTION.

Under the foregoing head the Mc-
Alester News-Capital has the follow-
ing to say on the tax subject:

Senator Campbell Russell has in-
troduced a joint resolution providing
for submitting to the people an
amendment to the constitution of Ok-
lahoma which would cause the dis-
tribution of the school tax on Rail-
ways, Express Companies, Pipe Lines
Telephone Companies and other cor-
porations which do an inter-county
business, per capita according to the
school enumeration throughout the
state, hoping thereby to aid the
poorer districts, not traversed by
these lines.

Whether this could be done, in
views of the separate levies required
by the various school districts, is
problematical. Nor is it advisable, we
think, to make such a sweeping
change of method.

But wouldn't it be a good idea,
under the present constitution, to
distribute the school taxes collected
from the sources mentioned per cap-
ita throughout the county?

Take this county for example.
There are some school districts
which are almost but not quite on a
railroad line. Yet they ship as much
stuff and furnish as much passenger
traffic as the districts through which
the roads run. They are just as
much responsible for the roads' pros-
perity as the districts that by acci-
dent have the roads traverse them.

But in the matter of school taxes
they get nothing at all, while the ad-
jacent districts, accidentally favor-
ed, get much of their revenue from
this source. The injustice is appar-
ent.

PREPARING FOR THE FUTURE.

In a meeting represented by the
business interests of the city last
night in the rooms of the 25,000
club an enthusiastic session was
held following the talk of President

Briles of the state normal. The meet-
ing was called at the instance of
President Briles and brought out the
amount of hard work he has done
for the state institution and the im-
portance of the people in assisting
him in protecting the school.

How well the citizens rallied to
the support of the normal may be
seen on another page of this paper.
There was no standing back on the
proposition, and financial aid came
as readily as did talk.

This spirit which has ever pre-
dominated in Ada is the thing which
is going to bring probably 800 per-
sons to the city during the summer
months. And now since these people,
with the yearly pupils, are to be
here, they will have to be taken
care of and President Briles' plan
of erecting dormitories for their ac-
commodation fills the bill. It will in-
sure very reasonable board for those
visiting and yet will be an excel-
lent investment for those who will
put their money in two or three such
buildings.

The president's idea was carefully
thought out and was so clearly rea-
sonable that it was accepted at once.

The barber says Sunday, Monday
and Tuesday were the nicest days
of this week.

JACK JOHNSON HAS
ADMITTED HE FAKED

SAYS HE WAS NOT KNOCKED
DOWN BY KETCHELL.

Big Black Fell Purposely in Ketchel
Fight to Make Pictures Look
Better.

Jack Johnson, the scot champion,
has come out with the announce-
ment that he faked the fall in his
battle with Stanley Ketchel. Many be-
lieved that "The Assassin" had stung
the negro, who arose and then rock-
ed the white man to sleep. This is
what the negro says of that fight:

By Jack Johnson.
In my career as a fighter the fel-
lows who had the reputations of be-
ing hard hitters never hurt me a
bit.

In my fight with Ketchel I was
able to tell every time when he
was going to start a swing. When-
ever he lowered his left arm I knew
something was coming and I set my-
self for it. I had Ketchel figured
right, and when he dropped that
left arm I feinted in and then he
started to swing and the only thing
I had to do was to step back and
then jab him any place I wanted to.

Ketchel never hit me hard enough
to hurt me and my trick in feinting
in the twelfth round is an old trick
of the game and one which I learn-
ed after I fought a few battles.

You know when a fighter knocks an-
other man down he generally feels
pretty cocky and drops his guard.
When I was down and gradually get-
ting up on one knee, I had my eye
on Ketchel all the time and timed
my opportunity perfectly. When I
saw he had dropped his guard en-
tirely I sprung to my feet and went
after him and before he had a chance
to protect himself I had landed the
blow that brought home the bacon.

So many stories have come to me
about not being able to make Jeffries
lead, Take it from me I'll make him
lead or retreat. I am not a bit afraid
of his crouch and I hope he takes
that position when he meets me,
but I am afraid he will change his
style of fighting entirely. I intend to
mix matters from the first tap of
the gong, and if I can beat him in
the first round, I'll do it, pictures or
no pictures.

But you can't tell now whether the
smoke is telling the truth.

PORTLAND CEMENT CO. HOLDS ANNUAL MEETING

ADAM L. BECK HEADS THE LIST OF OFFICERS.

The Board of Directors Elected for Ensuing Year—Capacity Increased.

The Ada Portland Cement company held their annual directors' meeting in the company's offices yesterday afternoon at two o'clock and elected the following officers for the ensuing year:

Adam L. Beck, President. James M. Wintersmith, Treasurer. George L. Kice, Secretary.

The board of directors includes the following: C. C. Bishop, Chicago, Illinois; Peter Martin, Huntington, Indiana; Wm. L. Whitaker, Ada; Jas. M. Wintersmith, Ada; Adam L. Beck, Ada.

The announcement of these officers and directors of this big industry will come as welcome news to the people of Ada.

Capacity Increased.

Beginning yesterday the plant increased its capacity and hereafter will turn out 2000 barrels of cement per day instead of 1800 barrels as in the past.

ALL COURT ROOMS ARE FULL UP THIS AFTERNOON

INDIAN AGENT REYNOLDS TAKES BROWN'S HANGOUT.

The Justice Goes Upstairs and Justice Netles Camps in City Hall.

All the court rooms in Ada are in use this afternoon. Justice Brown turned his room over to Indian Agent Reynolds who, with his interpreter, Jack Carnes, is attending to the Indians.

Justice Brown has gone to the county court room, up stairs in the court house, and is conducting the examining trial of Joe Watson and Louis McKnight, the negroes who engaged in a fight Monday night.

Justice Netles has a case on his hands and couldn't find room at the court house so he came up town and is listening to the evidence in the Roberts-Roff damage suit. This is a case from Roff and has been tried two times, each time a hung jury resulting. This being the third stab, it is expected to be the charm.

SOCIAL.

The Five Hundred Club was delightfully entertained by the gracious president, Mrs. J. T. Conn, Tuesday afternoon. Two members were added to this merry club, Mrs. E. B. Austin and Mrs. Ed Drummond. Substitutes were Mrs. Torbett, Mrs. Hart and Mrs. Sledge. Mrs. Nethery was also a pleasant caller during the afternoon.

Mrs. Adam Beck will entertain the club next meeting. ***

Sad News.

C. O. Bills received a message this morning announcing the death of his mother, Mrs. S. A. Bills, of Lewisburg, Tenn.

The message was delayed and on this account Mr. Bills will not go to the old home as the funeral will have taken place before he could arrive. Chas. has the sympathy of his many friends.

Honorable Tom D. McKeown was the guest at a banquet of the W. O. W. lodge at Tupelo last evening.

ACTIVITY IN CLUB MEETING

ENTHUSIASTIC SESSION HELD AT 25,000 CLUB ROOMS LAST NIGHT.

PLANNING SUMMER NORMAL

Expected That 800 Teachers From Neighboring Counties Will Attend E. C. S. N. Here This Summer.

A fair sized audience of business men assembled at the 25,000 club rooms last night and listened to a talk by President Briles of the normal.

He dwelled at some little length on the appropriation which has been recommended for the maintenance of the East Central normal and declared himself as expecting an appropriation by the present legislature of at least \$80,000.

Teachers' Accommodations.

The most important topic of the meeting was taken up, which is the securing and accommodating of teachers who are expected to attend the summer normal in Ada the coming year. The president stated that from 500 to 800 teachers from neighboring counties would be in attendance—with proper inducement from the people of Ada—and that the proposition of furnishing board and lodging was a serious one and in coping with it, suggested that some one financially interest himself to the extent of building two or three dormitories two stories high and to contain forty rooms each, the rooms being 12x12. This would take care of the visiting teachers during the two months they will be here and handle the pupils who will attend school nine months of the year. This would insure an occupancy of the buildings for eleven months of the year. The plan, as regards the pupils, will keep them together and under supervision.

The Cost and Revenue.

The buildings should be completed in time for the summer normal which begins June 17, and President Briles roughly estimated the cost of the buildings at \$3500 to \$4000 each, asserting that if it should cost double that amount it would be a good investment. If the rooms were heated by steam they could rent for one dollar a week and two could occupy a room. The rooms would be furnished but the pupils could be expected to furnish their linen, etc. \$2 a week for a room would amount to \$320 a month for each building. The attendance will justify two such buildings and probably three.

Another suggestion of the president was the purchasing and furnishing of the old East Side school building which the state would do. A competent family could be obtained who would supply good board for \$3 a week.

Already two or three local citizens have expressed themselves willing to build the dormitories, but their names were not given out at the meeting last night, they not being present.

Finance Pledged.

The question of bringing teachers to Ada to attend the coming normal was taken up. The county superintendents of about five adjoining counties would have to be given compensation for their time and trouble. This will require about \$500. The county will donate \$200 and President Lucas of the club got busy and in a jiffy the other \$300 was pledged.

This effort, however, depends on whether the appropriation is granted. If it is not granted, a normal on such a large scale will not be attempted, but the chances are considered in favor of a summer normal as outlined.

Notice of Dissolution of Partnership.

Doctors Craig and Runyan by mutual agreement dissolved partnership January 1, 1910.

Dr. Runyan assumes all indebtedness of the firm and will collect and receipt for all bills due the firm.

All bills will be mailed as soon as possible.

All bills remaining unadjusted Feb. 1st, 1910, will be considered delinquent, and will be placed in the hands of attorney after that date.

W. S. CREVELING IS NEW WEATHER DOPIST

CEMENT PLANT CHEMIST ACCEPTS WEATHER JOB.

Doctor McKinley, Who Has Been Figuring Climate Conditions, Resigns.

A change of weather prophets in Ada has been made and will be effective as soon as the new man gets hold of the apparatus by which the weather is doped, forecasted, told, predicted, or whichever or whatever you desire to call it.

For some time past Doctor McKinley has been the official dopist in this city but he has resigned the position. The postmaster has received a letter from the weather bureau saying that Mr. McKinley had ceased to take observations and asked the postmaster to recommend another good man, and in case he couldn't do so, to refer the matter to the 25,000 club and have them select a top-notch weather man.

The bureau's letter was read at the meeting of the club last night and President Beck of the Oklahoma Portland Cement company volunteered to use his influence on W. S. Creveling, the chemist at the cement plant. A word from Mr. Beck this morning stated that Mr. Creveling had accepted the honor and hereafter—as soon as he gets his mitts on the said apparatus, as above stated—will dig out the rain, snow, sleet and so forth and so on, from the thermometer and will keep the public informed in that line.

No remuneration goes with the job and two or three minutes an evening will do the business. Everything is furnished by the government, except the work, and Mr. Creveling will furnish that.

ABUSE TRANSIT PRIVILEGES.

Allegations Made Against Certain Shippers.

Chicago, Ill., Jan. 26.—Wholesale abuses of the transit privilege by certain shippers which may lead to numerous criminal prosecutions and which will result in stringent regulations by the Interstate Commerce Commission were disclosed in a hearing conducted here by Commissioner E. E. Clark today.

The disclosures which were made tended to show that certain shippers in almost every line of business, in which transit privileges are allowed, have been manipulating bills of lading and expense bills in such manner as to defraud the railroads out of large revenue and enrich themselves.

Balloon to Cross Atlantic.

New York, Jan. 26.—A balloon trip across the Atlantic will be undertaken in May. New York and Berlin are behind the scheme and the big dirigible for the purpose is now being constructed in Germany. The bag will carry 50,000 cubic feet of gas and will have two fifty-horsepower motors. It is planned that the balloon shall leave Berlin on May 15, with Van couver, B. C., as its ultimate destination.

Deficit Unusually Large.

Washington, Jan. 26.—One of the biggest single day's deficit in the treasury operations during this administration was noted yesterday when the disbursements exceeded the receipts by \$3,185,585. This was accounted for, however, largely by the expenditure of nearly \$2,000,000 on account of the Panama Canal and the fact that Monday's receipts for both customs and internal revenue show up rather poorly.

PROMINENT DURANT CITIZEN PRAISES ADA'S REV. FOWLER

The following clipping from the Durant News written by its old editor and proprietor, Judge Lewis Paulin, is an appreciation of Rev. O. E. Fowler, on the occasion of his leaving Durant for Ada to take the pastorate of the Second Baptist church. He has already impressed the city of Ada that he is indeed the desirable citizen represented by he Durant editor:

"Tribute to Rev. Fowler by Lewis Paulin.

"Rev. O. E. Fowler and his most estimable family leave tomorrow for Ada, at which place Mr. Fowler will take up his work as a minister of the gospel. He has been a citizen of Durant for the past seven years and during that time has thoroughly identified himself as one of its most progressive citizens, being always connected with every move for the city's advancement, either religiously, morally or commercially. As a Baptist minister and pastor, Rev. Fowler has been an unqualified success; having been ordained less than

three years, he has demonstrated that he was called by the Omnipotent One to carry out His own good work. Having a bright mind, a genial disposition and a consecrated love for the Master, he has been well fitted to do the work whereunto he has been called.

He has received a call from another state that would have paid a much larger salary than he will receive at Ada, but having cast his lot with the people of Oklahoma, he preferred to remain in this state and be connected with its growth and future greatness.

The writer predicts for Mr. Fowler a brilliant future and we can commend him to the people of Ada as a man, as a conscientious worker in the Master's vineyard, and as a minister who will one day have his name among the leaders of his church. Wishing for him and his family the richest of God's blessings in their new field of labor, we remain as ever, a friend.

"LEWIS PAULIN."

Notice W. C. T. U.

The W. C. T. U. will hold their meeting tomorrow afternoon at 3 o'clock with Mrs. N. B. Shands. It is very important that all members should be present at this meeting.

Legislature Will Investigate.

Chicago, Ill., Jan. 26.—Dealers today reduced the prices on butter, eggs and pork. It is stated today that the legislature will make an investigation.

\$20,000 Fire at Colorado.

Colorado, Tex., Jan. 25.—The new High School building burned at 5:45 p. m. today. Loss about \$20,000, with \$10,000 insurance. Origin of fire not known, but supposed to have caught in the basement. The fire boys were able to reach the building with but one hose, so were unable to control the fire. Some teachers and pupils were in the building, but no one was hurt.

ONLY ONE.

The Record in Ada Is a Unique One.

If the reader has a "bad back" or any kidney ail and is looking for relief and cure, better depend on the only remedy endorsed by people you know. Doan's Kidney Pills relieve quickly—cure permanently. Ada citizens testify to this. Here is a case of it:

Adolph Ridel, South Sixteenth St., Ada, Oklahoma, says: "I suffered from kidney disease for a couple years and Doan's Kidney Pills rid me of every symptom. Since using them I have been free from the dull ache through my loins and the sharp, shooting pains across my kidneys that had caused me so much misery. I procured Doan's Kidney Pills at G. M. Ramsey's Drug Store and am always glad to give them my recommendation."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

TER DROPS 5c.

125,000 IN PITTSBURG QUIT

Smoky City Workmen Swear Off Eating Meat—Cincinnati Gets Relief.

Oklahoma in the Strike

Also.

Detroit, Mich., Jan. 26.—There is a noticeable weakening in the price of food, but not sufficiently radical to cause any whoops of joy from the consumer. There is a sharp difference too, in the retail prices quoted downtown in the smaller stores. Butter dropped 5c.

One wholesaler says the drop was caused by the law of supply and demand.

Eggs are quoted lower, but will be much cheaper in a few weeks, but the idea of agitation or boycott having anything to do with it is ridiculed by the wholesalers.

WORKMEN COMMENCE BOYCOTT.

125,000 in Pittsburg Start Thirty-Day Meat Abstinence.

Pittsburg, Pa., Jan. 26.—Many a workman's dinner pail will be short in its pork chops, ham sandwich and other meat dishes today when the 125,000 workmen in Pittsburg and vicinity who have pledged themselves to begin their thirty days' period of meat abstinence. Butter and eggs will in a few days probably be under the ban the same as is meat at present. Fearing this, butter dealers began to scale the prices yesterday and in some instances the price was 6c lower than the day previous for the best creamery. Eggs, too, while they are the cold storage brand are beginning to come down in price and as much as 2 to 3c a dozen was lopped off late yesterday.

"Eat meat but once a day and you will help to solve the problem of the cost of living and improve your health," is the advice of Dr. E. R. Walters, director of the department of Health.

The remedy mentioned is not the only one proposed by Dr. Walters. He and Dr. J. C. McNeill, superintendent of the Bureau of Food Inspection, are convinced that the operation of a municipal abattoir would decrease materially the cost of meat to the consumer and would provide meat known to have been properly inspected.

CINCINNATI GETS RELIEF.

Butter Declines Six Cents—Eggs Three Cents Lower.

Cincinnati, Ohio, Jan. 26.—The boycott against high priced foodstuff made itself felt today, for there was a strong cutting of prices. The heaviest cut was made in the top grades of creamery butter, which was reduced from 33 1-2c to 32 1-2c in two days. Eggs dropped off 3c. Live stock loss from 15c to 25c a hundredweight. Wheat has gone down 5c in the last three days.

Muskogee Union Carpenters.

Muskogee, Ok., Jan. 26.—The meat boycott reached definite form here today when 300 members of Carpenters' Union No. 1072 adopted resolutions pledging the members to abstain from meat and trust-made articles until prices are reduced. The resolutions are not as radical as in most cases and declare that families of members "shall abstain in so far as possible."

At Bartlesville, Ok.

Bartlesville, Ok., Jan. 26.—Members of labor organizations here are beginning to consider the anti-meat eating crusade that is sweeping over the country. Bartlesville is the center of a large manufacturing district of Oklahoma, employing probably 1,000. It is estimated that 5,000 are depending upon them for a living.

JOE KEMP RUN OVER BY ENGINE

PROPRIETOR OF PONTOTOC CAFE
SUFFERS LOSS OF ARM
THIS AFTERNOON.

WILL SURVIVE THE ACCIDENT

His Hearing Being Affected He Fails
to Hear Approach of the Engine.
Accident Occurs at
Crossing.

At three o'clock this afternoon Joe Kemp, proprietor of the Pontotoc cafe, was run over by a Frisco switch engine at the Main street crossing and suffered the crushing of his left arm to such an extent that it will be amputated this afternoon.

Left Cafe at 2:55.
Near two fifty-five this afternoon Mr. Kemp told his employees that he was going to look at a place, and left the cafe through a rear door. At the time he decided to leave the building he was taking pies. He went down Main street and although an Evening News reporter could find no one who witnessed the accident, it is presumed that he walked in front of the engine, not noticing its ap-

proach and failing to hear it, as his hearing is badly impaired.

The accident happening near Oklahoma Central depot, the report of the accident was telephoned from that point to the offices of Drs. Faust and Hartman, and the injured man was taken to their rooms.

Bruise on Back.
Besides the badly torn up arm there is a bruise on his back, near the left side. Bruises are also evident on the left shoulder, but the arm is terribly ground up from the elbow to his hand.

Will Probably Live.
It is announced at press time that Mr. Kemp will probably live, although it can not be positively stated what the results will be until the operation is completed.

MAKE STARTLING CHARGES.
Dr. Harvey W. Wiley Says Sinister Influences Are Designed.

Washington, Jan. 26.—Aside from an intimate discussion of the American hen and her products, the feature of today's inquiry into high food prices by the sub-committee of the house committee of the District of Columbia was the statements of Dr. Harvey W. Wiley, chief of the Bureau of Chemistry of the Department of Agriculture, who charged that sinister influences, unnamed, had accomplished the repeal of the provision of law relating to enforcing efficiency in cold storage of food products.

Dr. Wiley said the elimination of the appropriation for this work had greatly hampered his department in protecting the public from deleterious food products. As to just what influences had been responsible for this result he did not say.

BEEF TRUST INVESTIGATION.

Taking of Testimony Before Special Examiner Expected Soon.

St. Louis, Mo., Jan. 26.—That the taking of testimony will begin within a few days in the beef trust investigation in Missouri is indicated by the appointment of Judge Daniel Dillon of St. Louis, as special examiner, announced by Chief Justice Vailant of the Missouri Supreme Court today. The selection of Judge Dillon followed the granting by the Supreme court of Attorney General Major's petition for an investigation.

The decision came as a surprise, because a consideration of the Attorney General's petition was not expected soon. The Attorney General has asked that a special examiner be named to hear testimony in a suit filed against nine of the largest packing companies in the country, charging them with violating the Missouri anti-trust laws.

Redwine Measure Providing Prison

ate—Several New Meas-
ures Introduced

Guthrie, Okla., Jan. 26.—The passage of three important bills, the introduction of several new measures and uneventful sessions of the house of the governor's fourth message, and uneventful sessions of both houses marked yesterday's sitting of the legislature.

The house passed and sent to the senate two bills, one by Representative Wallace of Garvin, carrying the emergency clause, extending time for payment of 1909 taxes from February 1 to April 1, 1910, and one by Representative Anthony of Stephens, legalizing the 1909 tax assessments. The senate passed Senator Redwine's bill appropriating \$20,000 to acquire an additional site for the state penitentiary at McAlester. Several important bills were introduced, notably one by Senator Yeager of Tulsa and Senator Strain of Wann, putting restrictions around long distance piping and the exploitation of gas, one by Senator Graham of Marietta, regulating surety bonds for railroad employees and making it unlawful for the railroads to designate any particular company to employ; one by Senator Smith of Duncan and Senator Franklin of Madill, creating the office of county assessor; one by Representative Anthony of Stephens and Hughes of Mayes, treating the Oklahoma state home for dependant children; one by Senator Stafford providing for the election of school boards, particularly applicable to cities under commission form of government; one by Representatives McMurphy of Oklahoma, forfeiting to the debtor all debts, interest and costs of collection of any debt or claim which the creditor sends out of the state for collection.

Probe Committee Named

The house named its committee on investigation of public funds as follows: Representatives Johnson of Hughes, Smith of Grant, Radtke of Craig, Workman of Rogers, Price of Osage, Simmons of Tulsa and Dixon of Okmulgee.

The house went into the committee of the whole to consider Wallace's bill extending the time of tax payments and Anthony's bill legalizing the 1909 tax assessments. William of McIntosh and R. L. Vebek moved to recommit the Wallace bill to the committee on revenue and taxation, which motion was followed by considerable discussion along the line of yesterday afternoon.

Tax Election Bill Passes.

The bill was finally recommitted for remodeling and reappeared later in the afternoon when it passed the house standing 74 to 14. The emergency clause was added by a vote of 73 to 14.

The Republican members were sufficiently strong to have prevented the bill carrying the emergency clause, but did not attempt to do so, nearly all of these voting for the bill and the emergency clause. The bill of final passage was discussed by several members of the house. Representative Ewell of Bryan county was an opponent to the measure and in letting his colleagues know of his opposition he took occasion to remind them that conditions in his home county as a whole were never better.

The report of the committee on hopee employees was adopted as follows: The Rev. J. P. Jones, chaplain; Mrs. Adams, assistant enrolling and recording clerk; Marie Smith, to all agency of Mrs. Katherine Speck, as committee clerk; Irving Higbee, page to the speaker; C. G. Black, assistant enrolling and recording clerk.

PARIS DEATH LOSS GROWING

FLOODS TAKE LIVES OF 100,000
PERSONS IN FRANCE—
RIVERS RISING.

FAMINE THREATENS NATION

In Many Places the Population Is In
Desperate Condition—The
Whole Republic In
Mourning

Paris, Jan. 26.—The floods have brought disaster to a large part of France. The Seine is now a raging torrent and rising at the rate of more than half an inch an hour. As it furiously rushes seaward it sounds the message of increasing misery and destruction.

The victims of the flood number more than 100,000 and the momentary loss is incalculable. Thousands of poor are hopelessly ruined. The government has requisitioned army and navy material to house the sufferers, and boats for the rescue of the sickened as well as those imprisoned in the houses in the flood centers on all sides of Paris.

The region of inundation is steadily enlarging and villages in scores of places are completely submerged, the people fleeing for their lives and abandoning everything. In many cases the soldiers have been obliged to use force in compelling the inhabitants to evacuate their homes. Hundreds of them refused to leave, clamoring only for food and water.

Paris is practically cut off south and west, and if the present conditions continue the question of food supplies will become menacing.

The senate today appropriated \$400,000 for national relief. The public aid fund for this purpose is swelling. President Fallieres heads the list with \$4,000. The Rothschilds have given \$20,000.

The entire population of Ivry-sur-Seine and adjacent places are in a desperate state. Only the tops of the houses at Alfortville are visible, the water averaging twelve feet in the streets. At this place, since 6 o'clock this morning, 3,000 persons have been rescued by boats, and 30,000 others from this section have found safety by their own efforts. The rescuers had more to contend with than the turbulent waters. Groups of apaches had gathered and soon were engaged in the work of piracy. They seized several of the boats and robbed rescued and rescuers alike. In some cases they entered the houses and carried on their depredations.

There were many cases of drowning and death to the aged and sick as a result of shock and exposure. Aged and infirm, in finding themselves unable to move, a man and a woman hanged themselves to a bed post.

The hospital at Ivry, containing 2,000 patients, is surrounded by water. As there is no means of cooking the food or of heating the building, the patients must be removed unless the flood subsides, and the attending physicians fear that grave results will follow.

President Fallieres and Premier Briand made an automobile trip through the flooded districts in the eastern section of Paris. They walked through some of the streets, knee-deep with mud and water, and saw the crowds fleeing, men tugging at valises and trunks, and weeping women burdened with children and all sorts of household belongings. The conditions were appalling, and the president and premier hastened away to seek means of relief for the suffering people.

The river authorities early this morning announced that the Seine would continue to rise until Thursday. The Lyons Railroad company sent out a notification that all services out of Paris had been suspended.

The great bonded warehouses at Ivry appear to be doomed to destruction, involving an immense loss. The merchants are hurriedly removing what they can.

Registers of Deeds Await Bid From Legislature.

Oklahoma City, Jan. 26.—The committee appointed Saturday by the state association of the registers of deeds will not appear before the legislature until it is invited to do so. This is the statement of J. S. Coates, the Oklahoma county register, who is a member of the committee. "And judging from the amount of bills on hand," said Mr. Coates, "I do not believe we will be invited at all. Of course we do not care."

The committee was appointed to confer in regard to the proposed salary and fee bill, which will affect, it is supposed, the earnings of the registers. Besides Mr. Coates, it consists of Col. R. A. Sneed, Lawton; C. E. Davis, Coalbourn; E. N. Williamson, Vinita; and S. S. Tolson, Ardmore.

RUSSELL'S SUGGESTION.

Under the foregoing head the Mc-
Alester News-Capital has the follow-
ing to say on the tax subject:

Senator Campbell Russell has in-
troduced a joint resolution providing
for submitting to the people an
amendment to the constitution of Ok-
lahoma which would cause the dis-
tribution of the school tax on Rail-
ways, Express Companies, Pipe Lines,
Telephone Companies and other cor-
porations which do an inter-county
business, per capita according to the
school enumeration throughout the
state, hoping thereby to aid the
poorer districts, not traversed by
these lines.

Whether this could be done, in
views of the separate levies required
by the various school districts, is
problematical. Nor is it advisable, we
think, to make such a sweeping
change of method.

But wouldn't it be a good idea,
under the present constitution, to
distribute the school taxes collected
from the sources mentioned per cap-
ita throughout the county?

Take this county for example.
There are some school districts
which are almost but not quite on a
railroad line. Yet they ship as much
stuff and turnish as much passenger
traffic as the districts through which
the roads run. They are just as
much responsible for the roads' pros-
perity as the districts that by acci-
dent have the roads traverse them.

But in the matter of school taxes
they get nothing at all, while the ad-
jacent districts, accidentally favor-
ed, get much of their revenue from
this source. The injustice is appar-
ent.

PREPARING FOR THE FUTURE.

In a meeting represented by the
business interests of the city last
night in the rooms of the 25,000
club an enthusiastic session was
held following the talk of President

Briles of the state normal. The meet-
ing was called at the instance of
President Briles and brought out the
amount of hard work he has done
for the state institution and the im-
portance of the people in assisting
him in protecting the school.

How well the citizens rallied to
the support of the normal may be
seen on another page of this paper.
There was no standing back on the
proposition, and financial aid came
as readily as did talk.

This spirit which has ever pre-
dominated in Ada is the thing which
is going to bring probably 800 per-
sons to the city during the summer
months. And now since these people,
with the yearly pupils, are to be
here, they will have to be taken
care of and President Briles' plan
of erecting dormitories for their ac-
commodation fills the bill. It will in-
sure very reasonable board for those
visiting and yet will be an excel-
lent investment for those who will
put their money in two or three such
buildings.

The barber says Sunday, Monday
and Tuesday were the nicest days
of this week.

JACK JOHNSON HAS ADMITTED HE FAKED

SAYS HE WAS NOT KNOCKED
DOWN BY KETCHELL.

Big Black Fell Purposely in Ketchel
Fight to Make Pictures Look
Better.

Jack Johnson, the scot champion,
has come out with the announce-
ment that he faked the fall in his
battle with Stanley Ketchel. Many be-
lieved that "The Assassin" had stung
the negro, who arose and then rock-
ed the white man to sleep. This is
what the negro says of that fight:

By Jack Johnson.

In my career as a fighter the fel-
lows who had the reputations of be-
ing hard hitters never hurt me a
bit.

In my fight with Ketchel I was
able to tell every time when he
was going to start a swing. When-
ever he lowered his left arm I knew
something was coming and I set my-
self for it. I had Ketchel figured
right, and when he dropped that
left arm I feinted in and then he
started to swing and the only thing
I had to do was to step back and
then jab him any place I wanted to.

Ketchel never hit me hard enough
to hurt me and my trick in falling
in the twelfth round is an old trick
of the game and one which I learn-
ed after I fought a few battles.
You know when a fighter knocks an-
other man down he generally feels
pretty cocky and drops his guard.
When I was down and gradually get-
ting up on one knee, I had my eye
on Ketchel all the time and timed
my opportunity perfectly. When I
saw he had dropped his guard en-
tirely I sprung to my feet and went
after him and before he had a chance
to protect himself a had landed the
blow that brought home the bacon.

So many stories have come to me
about not being able to make Jeffries
lead, Take it from me I'll make him
lead or retreat. I am not a bit afraid
of his crouch and I hope he takes
that position when he meets me.
But I am afraid he will change his
style of fighting entirely. I intend to
mix matters from the first tap of
the gong, and if I can beat him in
the first round, I'll do it, pictures or
no pictures.

But you can't tell now whether the
smoke is telling the truth.

NEW BETHEL.

Ed Walker of Colbert was visiting
on the Walker farm Sunday.
Most people are making good use
of this fine weather preparing their
land for the coming crop.

Mr. Hacker and family and Miss
Ada Shahan of Denton, Tex., arrived
last week and will reside in this
neighborhood. Miss Emeline Shahan
is on the sick list this week.

Our school is progressing nice-
ly with Prof. Crow as teacher. We
have one among, if not the best de-
corated school buildings in the coun-
ty.

Quite a large crowd attended pray-
er meeting Sunday night. A brother
of C. W. Stringer, whom he had not
seen since he was 11 years old came
in Friday to visit C. W.

Quite a number of our people made
their weekly trip to Ada Saturday.

Your correspondent interviewed Prof.
Crow and Mr. Shahan after they ar-
rived from the music party at Mr.
Palmer's last Monday night, but they
refused to tell very much and about
all we learned was they enjoyed the
occasion very much. Will say to the
Hustlers and Rustlers of Egypt that
they arrived sometime in the morn-
ing part of the night, but they are
not looking good any more.

ty turning in the Alarm shall stay at
telephone until they receive the O K
from the operator.

2. The operator shall then give
the address to the driver at the fire
station.

3. The operator shall then turn
the Alarm to the general Alarm, The
Whistle. The Engineer shall (1st.)
give triek whistle followed by—for

First Ward.....One Blast
Second Ward.....Two Blasts
Third Ward.....Three Blasts
Fourth Ward.....Four Blasts

OKLAHOMA DEATHS.

Wynnewood, Ok., Jan. 26.—J. M.
McMillan, pioneer of this place died
very suddenly Sunday afternoon about
5 o'clock. He had been down town all
evening and made a speech on the
street, went home and laid down and
died in two minutes.

McAlester, Ok., Jan. 26.—George
King, 32 years of age, a miner, was
killed in a mine at Carbon Monday
by a fall of rock, his body being
crushed.

Enfauila, Ok., Jan. 26.—Caddo Wads-
worth, one of the old Indian citizens
of Oklahoma and a widely known
and respected gentleman, died at his
home near Cathway and was buried
at the neighborhood burying ground.
A number from Enfauila attended the
funeral.

Newkirk, Ok., Jan. 26.—Mrs. Kather-
ine Aldridge, a native of Lincoln
county, Tenn., and lacking but a few
weeks of being 100 years old, died
here Monday at the home of her
nephew, James Aldridge. She was
married in 1826 and 1833 moved to
Cass county, Mo., where her husband
died in 1870, since which time she
had been a widow. Having no chil-
dren of her own she had reared seven
nephews and nieces.

PORTLAND CEMENT CO. HOLDS ANNUAL MEETING

ADAM L. BECK HEADS THE LIST OF OFFICERS.

The Board of Directors Elected for Ensuing Year—Capacity Increased.

The Ada Portland Cement company held their annual directors meeting in the company's offices yesterday afternoon at two o'clock and elected the following officers for the ensuing year:

Adam L. Beck, President
James M. Wintersmith, Treasurer
George L. Kice, Secretary

The board of directors includes the following: C. C. Bishop, Chicago; Illinois; Peter Martin, Huntington, Indiana; Wm. L. Whitaker, Ada; Jas. V. Wintersmith, Ada; Adam L. Beck, Ada.

The announcement of these officers and directors of this big industry will come as welcome news to the people of Ada.

Capacity Increased.
Beginning yesterday the plant increased its capacity and hereafter will turn out 2000 barrels of cement per day instead of 1800 barrels as in the past.

ALL COURT ROOMS ARE FULL UP THIS AFTERNOON

INDIAN AGENT REYNOLDS TAKES BROWN'S HANGOUT.

The Justice Goes Upstairs and Justice Nedles Camps in City Hall.

All the court rooms in Ada are in use this afternoon. Justice Brown turned his room over to Indian Agent Reynolds who, with his interpreter Jack Carnes, is attending to the Indians.

Justice Brown has gone to the county court room, up stairs in the court house, and is conducting the examining trial of Joe Watson and Louis McKnight, the negroes who engaged in a fight Monday night.

Justice Neules has a case on his hands and couldn't find room at the court house so he came up town and is listening to the evidence in the Roberts-Roff damage suit. This is a case from Roff and has been tried two times, each time a hung jury resulting. This being the third stab, it is expected to be the charm.

Social.
The Five Hundred Club was delightfully entertained by the gracious president, Mrs. J. T. Conn Tuesday afternoon. Two members were added to this merry club Mrs. E. B. Austin and Mrs. Ed Drummond. Substitutes were Mrs. Torbet, Mrs. Hart and Mrs. Sledge. Mrs. Neffery was also a pleasant caller during the afternoon.

Mrs. Adam Beck will entertain the club next meeting.

Sad News.
C. O. Bills received a message this morning announcing the death of his mother, Mrs. S. A. Bills, of Lewisburg, Tenn.

The message was delayed and on this account Mr. Bills will not go to the old home as the funeral will have taken place before he could arrive. Chas. has the sympathy of his many friends.

Honorable Tom D. McKeown was the guest at a banquet of the W. O. W. lodge at Tupelo last evening.

ACTIVITY IN CLUB MEETING

ENTHUSIASTIC SESSION HELD AT 25,000 CLUB ROOMS LAST NIGHT.

PLANNING SUMMER NORMAL
Expected That 800 Teachers From Neighboring Counties Will Attend E. C. S. N. Here This Summer.

A fair sized audience of business men assembled at the 25,000 club rooms last night and listened to a talk by President Briles of the normal.

He dwelled at some little length on the appropriation which has been recommended for the maintenance of the East Central normal and declared himself as expecting an appropriation by the present legislature of at least \$80,000.

Teachers' Accommodations.
The most important topic of the meeting was taken up which is the securing and accommodating of teachers who are expected to attend the summer normal in Ada the coming year. The president stated that from 500 to 800 teachers from neighboring counties would be in attendance—with proper inducement from the people of Ada—and that the proposition of furnishing board and lodging was a serious one and in coping with it, suggested that some one financially interest himself to the extent of building two or three dormitories two stories high and containing forty rooms each, the rooms being 12x12. This would take care of the visiting teachers during the two months they will be here and handle the pupils who will attend school nine months of the year. This would insure an occupancy of the buildings for eleven months of the year. The plan as regards the pupils will keep them together and under supervision.

The Cost and Revenue.
The buildings should be completed in time for the summer normal which begins June 17, and President Briles roughly estimated the cost of the buildings a \$3500 to \$4000 each asserting that if it should cost double that amount it would be a good investment. If the rooms were heated by steam they could rent for one dollar a week and two could occupy a room. The rooms would be furnished but the pupils could be expected to furnish their linen, etc. \$2 a week for a room would amount to \$320 a month for each building. The attendance will justify two such buildings and probably three.

Another suggestion of the president was the purchasing and furnishing of the old East Side school building which the state would do. A competent family could be obtained who would supply good board for \$3 a week.

Already two or three local citizens have expressed themselves willing to build the dormitories, but their names were not given out at the meeting last night they not being present.

Finance Pledged.
The question of bringing teachers to Ada to attend the coming normal was taken up. The county superintendents of about five adjoining counties would have to be given compensation for their time and trouble. This will require about \$500. The county will donate \$200 and President Lucas of the club got busy and in a jiffy the other \$300 was pledged. This effort, however, depends on whether the appropriation is granted. If it is not granted, a normal on such a large scale will not be attempted but the chances are considered in favor of a summer normal as outlined.

Notice of Dissolution of Partnership.

Doctors Craig and Runyan by mutual agreement dissolved partnership January 1, 1910.

Dr. Runyan assumes all indebtedness of the firm and will collect and receipt for all bills due the firm.

All bills will be mailed as soon as possible.

All bills remaining unadjusted Feb. 1, 1910 will be considered delinquent and will be placed in the hands of atorney after that date.

The Ada National Bank is authorized to receipt for any money paid in J. R. RUNYAN, M. D. 20-10t

W. S. CREVELING IS NEW WEATHER DOPIST

CEMENT PLANT CHEMIST ACCEPTS WEATHER JOB.

Doctor McKinley, Who Has Been Figuring Climate Conditions, Resigns.

A change of weather prophets in Ada has been made and will be effective as soon as the new man gets hold of the apparatus by which the weather is doped, forecasted, told, predicted, or whichever or whatever you desire to call it.

For some time past Doctor McKinley has been the official dopist in this city but he has resigned the position. The postmaster has received a letter from the weather bureau saying that Mr. McKinley had ceased to take observations and asked the postmaster to recommend another good man, and in case he couldn't do so to refer the matter to the 25,000 club and have them select a top-notch weather man.

The bureau's letter was read at the meeting of the club last night and President Beck of the Oklahoma Portland Cement company volunteered to use his influence on W. S. Creveling the chemist at the cement plant. A word from Mr. Beck this morning stated that Mr. Creveling had accepted the honor and hereafter—as soon as he gets his mitts on the said apparatus, as above stated—will dig out the rain, snow, sleet and so forth and so on from the thermometer and will keep the public informed in that line.

No remuneration goes with the job and two or three minutes an evening will do the business. Everything is furnished by the government except the work, and Mr. Creveling will furnish that.

ABUSE TRANSIT PRIVILEGES.
Allegations Made Against Certain Shippers.

Chicago Ill., Jan. 26.—Wholesale abuses of the transit privilege by certain shippers which may lead to numerous criminal prosecutions and which will result in stringent regulations by the Interstate Commerce Commission were disclosed in a hearing conducted here by Commissioner E. E. Clark today.

The disclosures which were made tended to show that certain shippers in almost every line of business, in which transit privileges are allowed have been manipulating bills of lading and expense bills in such manner as to defraud the railroads out of large revenue and enrich themselves.

Balloon to Cross Atlantic.

New York Jan. 26.—A balloon trip across the Atlantic will be undertaken in May. New York and Berlin are behind the scheme and the big dirigible for the purpose is now being constructed in Germany. The bag will carry 50,000 cubic feet of gas and will have two fifty-horsepower motors. It is planned that the balloon shall leave Berlin on May 15, with Van Couver, B. C., as its ultimate destination.

Deficit Unusually Large.

Washington Jan. 26.—One of the biggest single days deficit in the treasury operations during this administration was noted yesterday when the disbursements exceeded the receipts by \$3,185,585. This was accounted for however largely by the expenditure of nearly \$2,000,000 on account of the Panama Canal and the fact that Monday's receipts for both customs and internal revenue show up rather poorly.

PROMINENT DURANT CITIZEN PRAISES ADA'S REV. FOWLER

The following clipping from the Durant News written by its old editor and proprietor, Judge Lewis Paulin, is an appreciation of Rev. O. E. Fowler, on the occasion of his leaving Durant for Ada to take the pastorate of the Second Baptist church. He has already impressed the city of Ada that he is indeed the desirable citizen represented by the Durant editor:

"Tribute to Rev. Fowler by Lewis Paulin."

"Rev. O. E. Fowler and his most estimable family leave tomorrow for Ada, at which place Mr. Fowler will take up his work as a minister of the gospel. He has been a citizen of Durant for the past seven years and during that time has thoroughly identified himself as one of its most progressive citizens, being always connected with every move for the city's advancement, either religiously, morally or commercially. As a Baptist minister and pastor, Rev. Fowler has been an unqualified success, having been ordained less than

three years, he has demonstrated that he was called by the Omnipotent One to carry out His own good work. Having a bright mind, a genial disposition and a consecrated love for the Master, he has been well fitted to do the work whereunto he has been called.

He has received a call from another state that would have paid a much larger salary than he will receive at Ada, but having cast his lot with the people of Oklahoma, he preferred to remain in this state and be connected with its growth and future greatness.

The writer predicts for Mr. Fowler a brilliant future and we can commend him to the people of Ada as a man, as a conscientious worker in the Master's vineyard, and as a minister who will one day have his name among the leaders of his church. Wishing for him and his family the richest of God's blessings in their new field of labor, we remain as ever, a friend.

"LEWIS PAULIN."

Notice W. C. T. U.

The W. C. T. U. will hold their meeting tomorrow afternoon at 3 o'clock with Mrs. N. B. Shands. It is very important that all members should be present at this meeting.

Legislature Will Investigate.
Chicago, Ill., Jan. 26.—Dealers today reduced the prices on butter, eggs and pork. It is stated today that the legislature will make an investigation.

\$20,000 Fire at Colorado.
Colorado, Tex., Jan. 25.—The new High School building burned at 5:45 p. m. today. Loss about \$20,000, with \$10,000 insurance. Origin of fire not known, but supposed to have caught in the basement. The fire boys were able to reach the building with but one hose, so were unable to control the fire. Some teachers and pupils were in the building, but no one was hurt.

The Record in Ada Is a Unique One.

If the reader has a "bad back" or any kidney ailment and is looking for relief and cure, better depend on the only remedy endorsed by people you know. Doan's Kidney Pills relieve quickly—cure permanently. Ada citizens testify to this. Here is a case of it:

Adolph Ridel, South Sixteenth St., Ada, Oklahoma, says: "I suffered from kidney disease for a couple years and Doan's Kidney Pills rid me of every symptom. Since using them I have been free from the dull ache through my loins and the sharp, shooting pains across my kidneys that had caused me so much misery. I procured Doan's Kidney Pills at G. M. Ramsey's Drug Store and am always glad to give them my recommendation."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

BOYCOTT HELPS; PRICES SLIDE

WHOLESALEERS DECLARE THEY ARE NOT SCARED, BUT BUT.

TER DROPS 5c.

125,000 IN PITTSBURG QUIT

Smoky City Workmen Swear Off Eating Meat—Cincinnati Gets Relief.

Oklahoma in the Strike

Also.

Detroit, Mich., Jan. 26.—There is a noticeable weakening in the price of food, but not sufficiently radical to cause any whoops of joy from the consumer. There is a sharp difference too, in the retail prices quoted downtown in the smaller stores. Butter dropped 5c.

One wholesaler says the drop was caused by the law of supply and demand.

Eggs are quoted lower, but will be much cheaper in a few weeks, but the idea of agitation or boycott having anything to do with it, is ridiculed by the wholesalers.

WORKMEN COMMENCE BOYCOTT.

125,000 in Pittsburgh Start Thirty-Day Meat Abstinence.

Pittsburg, Pa., Jan. 26.—Many a workman's dinner pail will be short in its pork chops, ham sandwich and other meat dishes today when the 125,000 workmen in Pittsburgh and vicinity who have pledged themselves to begin their thirty days' period of meat abstinence. Butter and eggs will in a few days probably be under the ban the same as is meat at present. Fearing this, butler dealers began to scale the prices yesterday, and in some instances the price was 6c lower than the day previous for the best creamery Eggs, too, while they are the cold storage brand are beginning to come down in price and as much as 2 to 3c a dozen was topped off late yesterday.

"Eat meat but once a day and you will help to solve the problem of the cost of living and improve your health," is the advice of Dr. E. R. Walters, director of the department of Health.

The remedy mentioned is not the only one proposed by Dr. Walters. He and Dr. J. C. McNeill, superintendent of the Bureau of Food Inspection, are convinced that the operation of a municipal abattoir would decrease materially the cost of meat to the consumer and would provide meat known to have been properly inspected.

CINCINNATI GETS RELIEF.

Butter Declines Six Cents—Eggs Three Cents Lower.

Cincinnati, Ohio, Jan. 26.—The boycott against high priced foodstuffs made itself felt today, for there was a strong cutting of prices. The heaviest cut was made in the top grades of creamery butter, which was reduced from 33 1-2c to 32 1-2c in two days. Eggs dropped off 3c. Live stock from 15c to 25c a hundredweight. Wheat has gone down 5c in the last three days.

Muskogee Union Carpenters.

Muskogee, Ok., Jan. 26.—The meat boycott reached definite form here today when 300 members of Carpenters' Union No. 1072 adopted resolutions pledging the members to abstain from meat and "trust-made articles until prices are reduced. The resolutions are not as radical as in most cases and declare that families of members "shall abstain in so far as possible."

At Bartlesville, Ok.

Bartlesville, Ok., Jan. 26.—Members of labor organizations here are beginning to consider the anti-meat eating crusade that is sweeping over the country. Bartlesville is the center of a large manufacturing district of Oklahoma, employing probably 1,000. It is estimated that 5,000 are depending upon them for a living.

REAL ESTATE and FIRE INSURANCE

Advice We have recently established in the News Building a REAL ESTATE, INSURANCE and LOAN AGENCY and active and constant attention will be given to all business entrusted to our care. We propose to line up our agency along with the growth and advancement of the city, and we want to make your business acquaintance.

Real Estate We make a specialty of PUSHING property listed with our agency. We do not make a note of it on a memorandum, and forget it, but use printers ink to promote its early and sure sale. It pays to advertise. We preach that sort of doctrine and practice it as well. Property listed with us will be advertised, and if there is anything doing at all in the real estate transfers we are busy too. We have at the present date some pretty bargains in Ada stuff which you may see advertised in another column of this issue of the News. If you want to sell list with us today.

Insurance The WEAVER FIRE INSURANCE AGENCY was the first established in Ada, and during these nearly 10 years every claim has been promptly adjusted, to the entire satisfaction of the policy holder. This is not a bad record. This is true because only the best and strongest companies have been represented. Among these are: The Royal, New York Underwriters, the Niagara, and the Phenix. These are as strong as the Rock of Gibraltar. PROMPTNESS is the watch-word. You can make no mistake by selecting any of these to carry your risk.

Loans We are at present arranging to represent leading loan companies, and expect to be prepared at an early date to take care of applications for loans on city or farm property

JOE KEMP RUN OVER BY ENGINE

PROPRIETOR OF PONTOTOC CAFE
SUFFERS LOSS OF ARM
THIS AFTERNOON.

WILL SURVIVE THE ACCIDENT

His Hearing Being Affected He Falls
to Hear Approach of the Engine.

Accident Occurs at
Crossing.

At three o'clock this afternoon Joe Kemp, proprietor of the Pontotoc cafe, was run over by a Frisco switch engine at the Main street crossing and suffered the crushing of his left arm to such an extent that it will be amputated this afternoon.

Left Cafe at 2:55.
Near two fifty-five this afternoon Mr. Kemp told his employees that he was going to look at a place, and left the cafe through a rear door. At the time he decided to leave the building he was baking pies. He went down Main street and although an Evening News reporter could find no one who witnessed the accident, it is presumed that he walked in front of the engine, not noticing its ap-

proach and failing to hear it, as his hearing is badly impaired.

The accident happening near Oklahoma Central depot, the report of the accident was telephoned from that point to the offices of Drs. Faust and Hartman, and the injured man was taken to their rooms.

Bruiise on Back.

Besides the badly torn up arm, there is a bruise on his back, near the left side. Bruises are also evident on the left shoulder, but the arm is terribly ground up from the elbow to his hand.

Will Probably Live.

It is announced at press time that Mr. Kemp will probably live, although it can not be positively stated what the results will be until the operation is completed.

MAKE STARTLING CHARGES.

Dr. Harvey W. Wiley Says Sinister Influences Are Designed.

Washington, Jan. 26.—Aside from an intimate discussion of the American hen and her products, the feature of today's inquiry into high food prices by the sub-committee of the house committee of the District of Columbia was the statements of Dr. Harvey W. Wiley, chief of the Bureau of Chemistry of the Department of Agriculture, who charged that sinister influences, unnamed, had accomplished the repeal of the provision of law relating to enforcing efficiency in cold storage of food products.

Dr. Wiley said the elimination of the appropriation for this work had greatly hampered his department in protecting the public from deleterious food products. As to just what influences had been responsible for this result he did not say.

BEEF TRUST INVESTIGATION.

Taking of Testimony Before Special Examiner Expected Soon.

St. Louis, Mo., Jan. 26.—That the taking of testimony will begin within a few days in the beef trust investigation in Missouri is indicated by the appointment of Judge Daniel Dillon of St. Louis, as special examiner, announced by Chief Justice Valliant of the Missouri Supreme Court today. The selection of Judge Dillon followed the granting by the Supreme court of Attorney General Major's petition for an investigation.

The decision came as a surprise, because a consideration of the Attorney General's petition was not expected soon. The Attorney General has asked that a special examiner be named to hear testimony in a suit filed against nine of the largest packing companies in the country, charging them with violating the Missouri anti-trust laws.

Redwine Measure Providing Prison
S' Purchase Passes Senate—Several New Measures Introduced

Guthrie, Okla., Jan. 26.—The passage of three important bills, the introduction of several new measures and uneventful sessions of the legislature of weight, the governor's fourth message, and uneventful sessions of both houses marked yesterday's sitting of the legislature.

The house passed and sent to the senate two bills, one by Representative Wallace of Garvin, carrying the emergency clause, extending time for payment of 1909 taxes from February 1 to April 1, 1910, and one by Representative Anthony of Stephens, legalizing the 1909 tax assessments. The senate passed Senator Redwine's bill appropriating \$20,000 to acquire an additional site for the state penitentiary at McAlester. Several important bills were introduced, notably one by Senator Yeager of Tulsa and Senator Strain of Wann, putting restrictions around long distance piping and the exploitation of gas, one by Senator Graham of Marietta, regulating surety bonds for railroad employees and making it unlawful for the railroads to designate any particular company to employ; one by Senator Smith of Dittmar and Senator Franklin of Madill, creating the office of county assessor; one by Representative Anthony of Stephens and Hughes of Mayes, creating the Oklahoma state home for dependent children; one by Senator Stafford providing for the election of school boards, particularly applicable to cities under commission form of government; one by Representatives McMurphy of Oklahoma, forfeiting to the debtor all debts, interest and costs of collection of any debt or claim which the creditor sends out of the state for collection.

Probe Committee Named

The house named its committee on investigation of public funds as follows: Representatives Johnson of Hughes, Smith of Grant, Ratliff of Craig, Workman of Rogers, Price of Osage, Simmons of Tulsa and Dixon of Okmulgee.

The house went into the committee of the whole to consider Wallace's bill extending the time of tax payments and Anthony's bill legalizing 1909 tax assessments. Williams of McClain and Ratliff of Craig moved to recommit the Wallace bill to the committee on revenue and taxation, which motion was followed by considerable discussion along the line of yesterday afternoon.

Tax Election Bill Passes.

The bill was finally recommitted for remodeling and reappeared later in the afternoon when it passed the house standing 74 to 14. The emergency clause was added by a vote of 73 to 14.

The Republican members were sufficiently strong to have prevented the bill carrying the emergency clause, but did not attempt to do so, nearly all of these voting for the bill and the emergency clause. The bill on final passage was discussed by several members of the house. Representative Ewelt of Bryan county was an opponent to the measure and in letting his colleagues know of his opposition he took occasion to remind them that conditions in his home county as a whole were never better. The report of the committee on house employees was adopted as follows: The Rev. J. P. Jones, chaplain; Mrs. Adams, assistant enrolling and engrossing clerk; Marie Smith, to all agencies of Mrs. Katherine Speck, as committee clerk; Irving Higbee, page to the speaker; C. G. Black, assistant enrolling and engrossing clerk.

PARIS DEATH LOSS GROWING

FLOODS TAKE LIVES OF 100,000 PERSONS IN FRANCE—RIVERS RISING.

FAMINE THREATENS NATION

In Many Places the Population Is In Desperate Condition—The Whole Republic In Mourning

Paris, Jan. 26.—The floods have brought disaster to a large part of France. The Seine is now a raging torrent and rising at the rate of more than half an inch an hour. As it furiously rushes seaward it sounds the message of increasing misery and destruction.

The victims of the flood number more than 100,000 and the momentary loss is incalculable. Thousands of poor are hopelessly ruined. The government has requisitioned army and navy material to house the sufferers, and boats for the rescue of the stricken as well as those imprisoned in the houses in the flood centers on all sides of Paris.

The region of inundation is steadily enlarging and villages in scores of places are completely submerged, the people fleeing for their lives and abandoning everything. In many cases the soldiers have been obliged to use force in compelling the inhabitants to evacuate their homes. Hundreds of the houses in the flood centers on all sides of Paris.

Paris is practically cut off south and west, and if the present conditions continue the question of food supplies will become menacing.

The senate today appropriated \$400,000 for national relief. The public aid fund for this purpose is swelling. President Poincaré heads the list with \$4,000. The Rothschilds have given \$20,000.

The entire population of Ivey-sur-Seine and adjacent places are in a desperate state. Only the tops of the houses at Alfortville are visible, the water averaging twelve feet in the streets. At this place, since 6 o'clock this morning, 3,000 persons have been rescued by boats, and 30,000 others from this section have found safety by their own efforts. The rescuers had more to contend with than the turbulent waters. Groups of apaches had gathered and soon were engaged in the work of piracy. They seized several of the boats and robbed rescued and rescuers alike. In some cases they entered the houses and carried on their depredations.

There were many cases of drowning and death to the aged and sick as a result of shock and exposure. Aged and infirm, in finding themselves unable to move, a man and a woman hanged themselves to a bed post.

The hospital at Ivey, containing 2,000 patients, is surrounded by water. As there is no means of cooking the food or of heating the building, the patients must be removed unless the flood subsides, and the attending physicians fear that grave results will follow.

President Fallières and Premier Briand made an automobile trip through the flooded districts in the eastern section of Paris. They walked through some of the streets, knee deep with mud and water, and saw the crowds of people, men, women, children, and old people, all sorts of household belongings. The conditions were appalling, and the president and premier hastened away to seek means of relief for the suffering people.

The river authorities early this morning announced that the Seine would continue to rise until Thursday. The Lyons Railroad company sent out a notification that all services out of Paris had been suspended.

The great bonded warehouses at Ivey appear to be doomed to destruction, involving an immense loss. The merchants are hurriedly removing what they can.

Registers of Deeds Await Bid From Legislature.

Oklahoma City, Jan. 26.—The committee appointed Saturday by the state association of the registers of deeds will not appear before the legislature until it is invited to do so. This is the statement of J. S. Coates, the Oklahoma county register, who is a member of the committee. "And judging from the amount of bills on hand," said Mr. Coates, "I do not believe we will be invited at all. Of course we do not care."

The committee was appointed to confer in regard to the proposed salary and fee bill, which will affect, it is supposed, the earnings of the registers. Besides Mr. Coates, it consists of Col. E. A. Sneed, Lawton; C. E. Davis, Coalgate; E. N. Williamson, Vinita, and S. S. Tolson, Ardmore.

RUSSELL'S SUGGESTION.

Under the foregoing head the Mc-
Alester News-Capital has the follow-
ing to say on the tax subject:

Senator Campbell Russell has in-
troduced a joint resolution providing
for submitting to the people an
amendment to the constitution of Ok-
lahoma which would cause the dis-
tribution of the school tax on Rail-
ways, Express Companies, Pipe Lines
Telephone Companies and other cor-
porations which do an inter-county
business, per capita according to the
school enumeration throughout the
state, hoping thereby to aid the
poorer districts, not traversed by
these lines.

Whether this could be done, in
views of the separate levies required
by the various school districts, is
problematical. Nor is it advisable, we
think, to make such a sweeping
change of method.

But wouldn't it be a good idea,
under the present constitution, to
distribute the school taxes collected
from the sources mentioned per cap-
ita throughout the county?

Take this county for example.
There are some school districts
which are almost but not quite on a
railroad line. Yet they ship as much
stuff and furnish as much passenger
traffic as the districts through which
the roads run. They are just as
much responsible for the roads' pros-
perity as the districts that by ac-
cident have the roads traverse them.

But in the matter of school taxes
they get nothing at all, while the ad-
jacent districts, accidentally favor-
ed, get much of their revenue from
this source. The injustice is appar-
ent.

PREPARING FOR THE FUTURE.

In a meeting represented by the
business interests of the city last
night in the rooms of the 25,000
club an enthusiastic session was
held following the talk of President

Briles of the state normal. The meet-
ing was called at the instance of
President Briles and brought out the
amount of hard work he has done
for the state institution and the im-
portance of the people in assisting
him in protecting the school.

How well the citizens rallied to
the support of the normal may be
seen on another page of this paper.
There was no standing back on the
proposition, and financial aid came
as readily as did talk.

This spirit which has ever pre-
dominated in Ada is the thing which
is going to bring probably 800 per-
sons to the city during the summer
months. And now since these people,
with the yearly pupils, are to be
here, they will have to be taken
care of and President Briles' plan
of erecting dormitories for their ac-
commodation fills the bill. It will in-
sure very reasonable board for those
visiting and yet will be an excel-
lent investment for those who will
put their money in two or three such
buildings.

The president's idea was carefully
thought out and was so clearly rea-
sonable that it was accepted at once.

JACK JOHNSON HAS ADMITTED HE FAKED

SAYS HE WAS NOT KNOCKED
DOWN BY KETCHELL.

Big Black Fell Purposely in Ketchel

Fight to Make Pictures Look
Better.

Jack Johnson, the scot champion,
has come out with the announce-
ment that he faked the fall in his
battle with Stanley Ketchel. Many be-
lieved that "The Assassin" had stung
the negro, who arose and then rock-
ed the white man to sleep. This is
what the negro says of that fight:

By Jack Johnson.

In my career as a fighter the fel-
lows who had the reputations of be-
ing hard hitters never hurt me a
bit.

In my fight with Ketchel I was
able to tell every time when he
was going to start a swing. When-
ever he lowered his left arm I knew
something was coming and I set my-
self for it. I had Ketchel figured
right, and when he dropped that
left arm I feinted in and then he
started to swing and the only thing
I had to do was to step back and
then jab him any place I wanted to.

Ketchel never hit me hard enough
to hurt me and my trick in falling
in the twelfth round is an old trick
of the game and one which I learn-
ed after I fought a few battles. You
know when a fighter knocks an-
other man down he generally feels
pretty cocky and drops his guard.
When I was down and gradually get-
ting up on one knee, I had my eye
on Ketchel all the time and timed
my opportunity perfectly. When I
saw he had dropped his guard I en-
tered I sprung to my feet and went
after him and before he had a chance
to protect himself I had landed the
blow that brought home the bacon.

So many stories have come to me
about not being able to make Jeffries
lead. Take it from me I'll make him
lead or retreat. I am not a bit afraid
of his crouch and I hope he takes
that position when he meets me,
but I am afraid he will change his
style of fighting entirely. I intend to
mix matters from the first tap of
the gong, and if I can beat him in
the first round, I'll do it, pictures or
no pictures.

But you can't tell now whether the
smoke is telling the truth.

ured in the strong box of the Cincin-

with a capital G. The players who
signed are George Suggs, Tom Cant-

ACTIVITY IN CLUB MEETING

ENTHUSIASTIC SESSION HELD AT 25,000 CLUB ROOMS LAST NIGHT.

PLANNING SUMMER NORMAL

Expected That 500 Teachers From Neighboring Counties Will Attend E. C. S. N. Here This Summer.

A fair sized audience of business men assembled at the 25,000 club rooms last night and listened to a talk by President Briles of the normal

He dwelt at some little length on the appropriation which has been recommended for the maintenance of the East Central normal and declared himself as expecting an appropriation by the present legislature of at least \$80,000

Teachers' Accommodations.

The most important topic of the meeting was taken up which is the securing and accommodating of teachers who are expected to attend the summer normal in Ada the coming year The president stated that from 500 to 800 teachers from neighboring counties would be in attendance—with proper inducement from the people of Ada—and that the proposition of furnishing board and lodging was a serious one and in coping with it, suggested that some one financially interested himself to the extent of building two or three dormitories two stories high and contain forty rooms each, the rooms being 12x12 This would take care of the visiting teachers during the two months they will be here and handle the pupils who will attend school nine months of the year. This would insure an occupancy of the buildings for eleven months of the year The plan as regards the pupils will keep them together and under supervision

The Cost and Revenue.

The buildings should be completed in time for the summer normal which begins June 17, and President Briles roughly estimated the cost of the buildings a \$3500 to \$4000 each asserting that if it should cost double that amount it would be a good investment if the rooms were heated by steam they could rent for one dollar a week and two could occupy a room The rooms would be furnished but the pupils could be expected to furnish their linen, etc \$2 a week for a room would amount to \$320 a month for each building The attendance will justify two such buildings and probably three

Another suggestion of the president was the purchasing and furnishing of the old East Side school building which the state would do. A competent family could be obtained who would supply good board for \$3 a week

Already two or three local citizens have expressed themselves willing to build the dormitories, but their names were not given out at the meeting last night they not being present

Finance Pledged.

The question of bringing teachers to Ada to attend the coming normal was taken up The county superintendents of about five adjoining counties would have to be given compensation for their time and trouble. This will require about \$500 The county will donate \$200 and President Lucas of the club got busy and in a jiffy the other \$300 was pledged

This effort, however, depends on whether the appropriation is granted If it is not granted, a normal on such a large scale will not be attempted but the chances are considered in favor of a summer normal as outlined

W. S. CREVELING IS NEW WEATHER DOPIST

CEMENT PLANT CHEMIST ACCEPTS WEATHER JOB.

Doctor McKinley, Who Has Been Figuring Climate Conditions, Resigns.

A change of weather prophets in Ada has been made and will be effective as soon as the new man gets hold of the apparatus by which the weather is doped, forecasted, told, predicted, or whichever or whatever you desire to call it

For some time past Doctor McKinley has been the official dopist in this city but he has resigned the position. The postmaster has received a letter from the weather bureau saying that Mr McKinley had ceased to take observations and asked the postmaster to recommend another good man, and in case he couldn't do so to refer the matter to the 25,000 club and have them select a top-notch weather man

The bureau's letter was read at the meeting of the club last night and President Beck of the Oklahoma Portland Cement company volunteered to use his influence on W S Creveling the chemist at the cement plant. A word from Mr Beck this morning stated that Mr Creveling had accepted the honor and hereafter—as soon as he gets his mitts on the said apparatus, as above stated—will dig out the rain, snow, sleet and so forth and so on from the thermometer and will keep the public informed in that line

No remuneration goes with the job and two or three minutes an evening will do the business Everything is furnished by the government except the work, and Mr. Creveling will furnish that

ABUSE TRANSIT PRIVILEGES.

Allegations Made Against Certain Shippers.

Chicago Ill, Jan 26—Wholesale abuses of the transit privilege by certain shippers which may lead to numerous criminal prosecutions and which will result in stringent regulations by the Interstate Commerce Commission were disclosed in a hearing conducted here by Commissioner E E Clark today.

The disclosures which were made tended to show that certain shippers in almost every line of business, in which transit privileges are allowed have been manipulating bills of lading and expense bills in such manner as to defraud the railroads out of large revenue and enrich themselves

Balloon to Cross Atlantic.

New York Jan 26—A balloon trip across the Atlantic will be undertaken in May New York and Berlin are behind the scheme and the big dirigible for the purpose is now being constructed in Germany The bag will carry 50,000 cubic feet of gas and will have two fifty-horsepower motors It is planned that the balloon shall leave Berlin on May 15, with Van couver, B C., as its ultimate destination

Deficit Unusually Large.

Washington Jan 26.—One of the biggest single days deficit in the treasury operations during this administration was noted yesterday when the disbursements exceeded the receipts by \$3,185,585 This was accounted for however largely by the expenditure of nearly \$2,000,000 on account of the Panama Canal and the fact that Monday's receipts for both customs and internal revenue show up rather poorly

PROMINENT DURANT CITIZEN
PRAISES ADA'S REV. FOWLER

The following clipping from the Durant News written by its old editor and proprietor, Judge Lewis Paulin, is an appreciation of Rev. O. E. Fowler, on the occasion of his leaving Durant for Ada to take the pastorate of the Second Baptist church. He has already impressed the city of Ada that he is indeed the desirable citizen represented by the Durant editor:

"Tribute to Rev. Fowler by Lewis Paulin."

"Rev. O. E. Fowler and his most estimable family leave tomorrow for Ada, at which place Mr. Fowler will take up his work as a minister of the gospel. He has been a citizen of Durant for the past seven years and during that time has thoroughly identified himself as one of its most progressive citizens, being always connected with every move for the city's advancement, either religiously, morally or commercially. As a Baptist minister and pastor, Rev. Fowler has been an unqualified success, having been ordained less than

three years, he has demonstrated that he was called by the Omnipotent One to carry out His own good work. Having a bright mind, a genial disposition and a consecrated love for the Master, he has been well fitted to do the work whereunto he has been called.

He has received a call from another state that would have paid a much larger salary than he will receive at Ada, but having cast his lot with the people of Oklahoma, he preferred to remain in this state and be connected with its growth and future greatness.

The writer predicts for Mr. Fowler a brilliant future and we can commend him to the people of Ada as a man, as a conscientious worker in the Master's vineyard, and as a minister who will one day have his name among the leaders of his church. Wishing for him and his family the richest of God's blessings in their new field of labor, we remain as ever, a friend.

"LEWIS PAULIN."

Chicago, Ill., Jan. 26—Dealers today reduced the prices on butter, eggs and pork. It is stated today that the legislature will make an investigation.

\$20,000 Fire at Colorado.
Colorado, Tex., Jan. 25—The new High School building burned at 5:45 p. m. today. Loss about \$20,000, with \$10,000 insurance. Origin of fire not known, but supposed to have caught in the basement. The fire boys were able to reach the building with but one hose, so were unable to control the fire. Some teachers and pupils were in the building, but no one was hurt.

BOYCOTT HELPS;
PRICES SLIDE

WHOLESALE DECLARE THEY ARE NOT SCARED, BUT BUTTER DROPS 5c.

125,000 IN PITTSBURG QUIT

Smoky City Workmen Swear Off Eating Meat—Cincinnati Gets Relief.

Oklahoma in the Strike

Also.

Detroit, Mich., Jan. 26—There is a noticeable weakening in the price of food, but not sufficiently radical to cause any whoops of joy from the consumer. There is a sharp difference too, in the retail prices quoted downtown in the smaller stores. Butter dropped 5c.

One wholesaler says the drop was caused by the law of supply and demand.

Eggs are quoted lower, but will be much cheaper in a few weeks, but the idea of agitation or boycott having anything to do with it is ridiculed by the wholesalers.

WORKMEN COMMENCE BOYCOTT.

125,000 in Pittsburgh Start Thirty-Day Meat Abstinence.

Pittsburgh, Pa., Jan. 26—Many a workman's dinner pail will be short in its pork chops, ham sandwich and other meat dishes today when the 125,000 workmen in Pittsburgh and vicinity who have pledged themselves to begin their thirty days' period of meat abstinence. Butter and eggs will in a few days probably be under the ban the same as meat is present. Fearing this, butter dealers began to scale the prices yesterday and in some instances the price was 5c lower than the day previous for the best creamery eggs, too, while they are the cold storage brand are beginning to come down in price and as much as 2 to 3c a dozen was topped off late yesterday.

"Eat meat but once a day and you will help to solve the problem of the cost of living and improve your health," is the advice of Dr. E. R. Walters, director of the department of Health.

The remedy mentioned is not the only one proposed by Dr. Walters. He and Dr. J. C. McNeill, superintendent of the Bureau of Food Inspection, are convinced that the operation of a municipal abattoir would decrease materially the cost of meat to the consumer and would provide meat known to have been properly inspected.

CINCINNATI GETS RELIEF.

Butter Declines Six Cents—Eggs Three Cents Lower.

Cincinnati, Ohio, Jan. 26—The boycott against high priced foodstuffs made itself felt today, for there was a strong cutting of prices. The heaviest cut was made in the top grades of creamery butter, which was reduced from 33 1-2c to 32 1-2c in two days. Eggs dropped off 3c. Live stock too from 15c to 25c a hundredweight. Wheat has gone down 5c in the last three days.

Muskogee Union Carpenters.

Muskogee, Ok., Jan. 26—The meat boycott reached definite form here today when 300 members of Carpenters' Union No. 1072 adopted resolutions pledging the members to abstain from meat and "rust-made" articles until prices are reduced. The resolutions are not as radical as in most cases and declare that families of members "shall abstain in so far as possible."

At Bartlesville, Ok.

Bartlesville, Ok., Jan. 26—Members of labor organizations here are beginning to consider the anti-meat eating crusade that is sweeping over the country. Bartlesville is the center of a large manufacturing district of Oklahoma, employing probably 1,100. It is estimated that 5,000 are depending upon them for a living.
